

Optical Storage Solutions For Compaq OpenVMS

Using an optical storage solution in your OpenVMS environment is simple and easy with the family of products from U.S. Design. A combination of software and/or hardware from U.S. Design will provide you with options based on your specific requirements.

- Optical SuperSTOR or Universal SuperSTOR Software for OpenVMS
- Optical Hardware Standalone and/or Jukebox configurations
- CD-ROM, CD-R, DVD-RAM, 5.25" Rewritable, 5.25" WORM Available
- Storage Capacity from 650 MB up to 17 TB
- Complete OpenVMS magnetic disk emulation

□ *Software*

Optical SuperSTOR Software -

“Driver Based Software” that allows an optical drive and/or jukebox to be attached to a system running OpenVMS with transparent operation. Features include the following:

- Magnetic Disk Emulation
- Full Cluster Support - Based on Hardware
- Platter Binding - Based on Hardware
- Full Jukebox Robotic Controls
- Full Cluster Support - Based on Hardware
- Support for DVD, 5.25" (MO & WORM) and CD

Universal SuperSTOR Software -

“Java Powered Software” that allows an optical drive and/or jukebox to be attached to a system under OpenVMS with transparent operation. Features include the following:

- Magnetic Disk Emulation
- Full Jukebox Robotic Controls
- Support for DVD and 5.25" Rewritable
- Window NT/2000, Linux and Tru64 Unix support
- Interchangeable file system (UDF)

□ *Hardware*

Standalone Optical Hardware:

- **CD-R** **650 MB (Single Sided)**
- **DVD-RAM** **4.7 GB Per Side (Dual Sided Available)**
- **5.25" Rewritable** **4.55 GB Per Side (Dual Sided)**
- **5.25" WORM** **4.55 GB Per Side (Dual Sided)**

DVD Optical Jukebox Hardware:

- **Small Model** **Up to 40 Media Slots or 376 MB**
- **Medium Model** **Up to 480 Media Slots or 2.256 TB**
- **Large Model** **Up to 1840 Media Slots or 17.296 TB**

- **DVD-RAM Rewritable Media**
- **Removable Media**
- **SCSI Interface**
- **Storage Media Life - 20+ years**

5.25" Optical Jukebox Hardware:

- **Small Model** **Up to 76 Media Slots or 691 MB**
- **Medium Model** **Up to 238 Media Slots or 2.165 TB**
- **Large Model** **Up to 500 Media Slots or 4.55 TB**

- **WORM or Rewritable**
- **Removable Media**
- **SCSI Interface**
- **Storage Media Life - 10+ years**
- **Equivalent to Compaq RW Family**

NOTE: This is a "Strategic Product" subject to COCOM regulations. Export contrary to COCOM procedures and regulations is prohibited. Data transfer rates are based on hardware manufacturer documentation and vary according to specific applications. Specifications subject to change without notice.
